SUMMARY

Senior Frontend Engineer with **6+ years** building scalable, real-time web and cross-platform mobile products. Shipped React, Next.js, and Flutter applications across **fintech, healthcare, and live-communication** domains — owning UI architecture, WebRTC/SignalR integration, performance budgets, and design-system work from concept to production.

CORE STACK

FRONTEND

React.js Next.js TypeScript Redux React Hooks Tailwind CSS Framer Motion
HTML5 / CSS3 JavaScript (ES6+) Ant Design

MOBILE

Flutter Dart Floor ORM SQLite Android iOS

REAL-TIME

WebRTC SignalR WebSocket Socket.io

BACKEND

Node.js PHP REST APIs MySQL PostgreSQL MongoDB

TOOLING

Git / GitHub Vercel VS Code Figma npm / yarn Jira

EXPERIENCE

DigitalHire

Software Engineer

Jan 2023 – Present

Karachi, Pakistan

- **Owned web + mobile feature delivery** on a recruiting platform — shipped Next.js dashboards and Flutter Android/iOS apps from design hand-off through production release.
- **Improved Core Web Vitals** across critical recruiter flows; introduced reusable component patterns that cut UI duplication and shortened feature lead-time.
- Integrated authentication, payment, and third-party APIs; partnered with design, product, and QA to keep weekly release cadence.

Kistpay

React.js / Front-End Developer

Feb 2022 – Dec 2022

Karachi, Pakistan

- **Built the complete admin portal** for a Shariah-compliant BNPL fintech platform using React.js, Redux, and Tailwind CSS — used daily by operations and risk teams.
- Delivered installment management, role-based access control, and real-time analytics dashboards.
- Improved data-fetching strategy and component memoization, reducing perceived load time on key dashboards.

Miletap & Entertech

Nov 2018 – Nov 2021

React.js Developer

Karachi (Remote / Part-Time)

- **Shipped multiple production React apps** — Reap Agro (farmer-loan onboarding), Helpers (service booking), Khawateen Rozgar (women employment), and Konnect (real-time video calling).
- Owned UI architecture with Redux and Tailwind CSS; introduced typed prop boundaries and shared design tokens across products.
- Integrated **WebRTC + SignalR** for live video and messaging; partnered with backend on REST API contracts.

Civil Hospital Karachi

Jun 2016 – Jan 2017

Junior PHP Developer

Karachi, Pakistan

- Built a full Leave Management System with role-based access using PHP, MySQL, Bootstrap, and jQuery.
- Maintained the hospital website and supported departmental IT operations.

— SELECTED PROJECTS

Agent Shah 3D · interactive 3D portfolio game

First-person browser experience with physics-driven movement and reactive environment; built solo from engine choice through deployment.

Three.js Rapier Meshopt Vercel

Konnect (konnect.im) · real-time video calling platform

Group video, screen share, and messaging with low-latency signalling and adaptive media handling.

React Redux WebRTC SignalR

Kistpay Admin Portal · Shariah-compliant BNPL dashboard

Operations console for installment management, dynamic reporting, and role-based access.

React.js Redux Tailwind CSS

Reap Agro · farmer-loan onboarding

Field-friendly application capturing borrower data and routing it through the lending workflow.

React.js Redux REST APIs

OPD Entry Software · offline-first hospital intake

Cross-platform clinic app with patient records, dynamic reporting, and background sync on reconnect.

Flutter Floor ORM SQLite
